WHY ODIN EDUCATION?

Odin Education is about humanizing technology to bring individualized attention to each student while bringing them to an Education Ecosystem

WHAT IS ODIN EDUCATION?

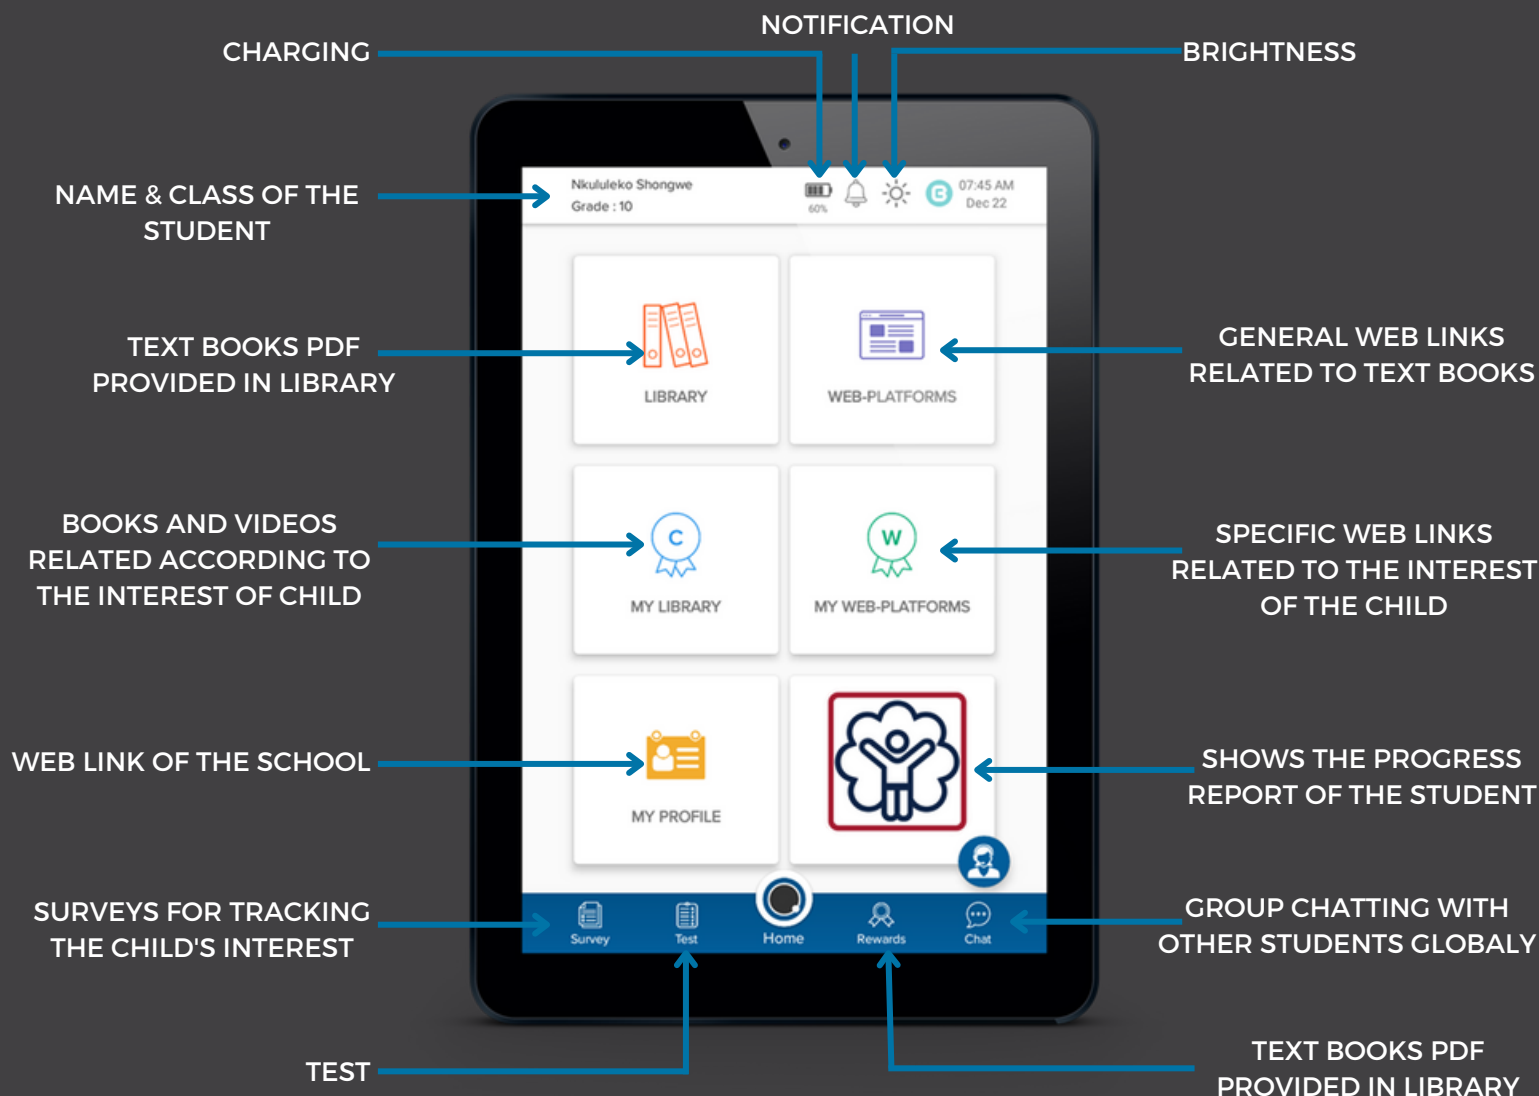

In this 4IR age the teaching methods of education is fast shifting where the subject based learning system is no longer relevant. Odin Education is the tool for the symbiotic relation between the human and technology based learning for the Z gen.

WHY DID JENDAMARK COME INTO THE FIELD OF EDUCATION?

- We are a tech company that has been able to compete on the global stage despite our humble origins and challenges faced.
- While developing the 4IR solution in the manufacturing we realized that the same technology and framework can be used in enhancing the education.
- Jendemark took a strategic decision to serve the needs of under-developed regions ,using latest technologies like: Artificial intelligence & cloud technology

OMANG DEVICE

THINK INDIVIDUAL

Each user is unique. Their solution should be unique.

THINK HUMAN

We focus on humanizing the technology

OUR DESIGN PRINCIPALS

THINK ECOSYSTEM

We continuously integrate learners, teachers, mentors, companies and the latest online education platforms

THINK IMPACT

We have one measure of success-engagement
